

Week 1 IT2 Board Game 3 'Who'

Aim:

- To reinforce pronouns

Number of players: 2-3

How to play:

- Each child has 20 cards dealt from the pack of 'Who' cards (pronouns), (or 15 if there are 3 players).
- They roll a dice and the highest score starts.
- The first child rolls again and moves their counter and sees which picture they land on, on the base board.
- They then look to find the matching 'who' (pronoun) in their cards and if they have it they put the card on the centre of the board in the 'he' 'she' or 'they' space as appropriate.
- If they land on a happy face square, they can put one card of their choice (he, she or they) in the centre of the board.
- They may land on a square which says they go back or ahead some spaces. If they move to the directed square they can put the card that corresponds to their new square on the centre of the board.
- The winner is the first player to use up all their cards by placing them on the appropriate pronouns on the baseboard.
