

“We gain so much from being part of a local group. Not only is it great for my daughter, but it’s a wonderful support for us as parents too.”

Meet families with deaf children near you

Joining a local group is a great way to meet other families with deaf children. Covering all age groups and levels of hearing loss, they provide support to parents and carers. Your child can also make lots of new friends.

There's always something going on – from fun days and parties, to coffee mornings and information sessions. Local groups support the whole family.

There are more than 100 local groups across the UK, each run by a committee of volunteers who are usually parents of deaf children. Local groups are independent although we work closely with them. Each group is different and decides which events and activities they want to run.

Local groups warmly welcome all deaf children and their families, so find your nearest local group and get involved!
