

## Summary for children and young people

Name: National Deaf Children's Society

URN: 1027090

Date of inspection: 23 March 2019

Ofsted recently inspected the first time away event. I feel that the care and support you receive is good.

It was great meeting you. You all seemed so excited and I hope you enjoyed making new friends.

It was great seeing you bonding together. Some of you were teaching the other children sign language, which is awesome.

You told me you were looking forward to the fun activities. I hope you enjoyed crate stacking, bush craft, archery, sailing and climbing.

Your parents were very impressed with everything and they had no concerns. They felt staff were 'helpful' and they received lots of information about your weekend away.

The holiday events are well organised, and all staff work really hard to make it a fun time for you. They are very proud of the difference they can make in your life.

You also received information about the weekend. You were also had photos of the staff who would be working with you. I hope you were able to write down all your fun memories in your diary.

It is wonderful that the different activities help you grow in confidence and feel great about all the amazing things you can do.

All the team try and make sure camps are safe for you. I like the fact that you felt safe and you know how to complain.

I am happy with the care being provided for you.

The only things I wanted improved was the feedback from yourself and your parents being included in a report. At the time I was visiting, one of the windows also needed a restrictor.

I wish you all the best

Sharon Payne

Ofsted

Social Care Regulatory Inspector
