

How to set up your JustGiving fundraising page

1. Go to the [NDCS JustGiving page](#) and select Fundraise for us

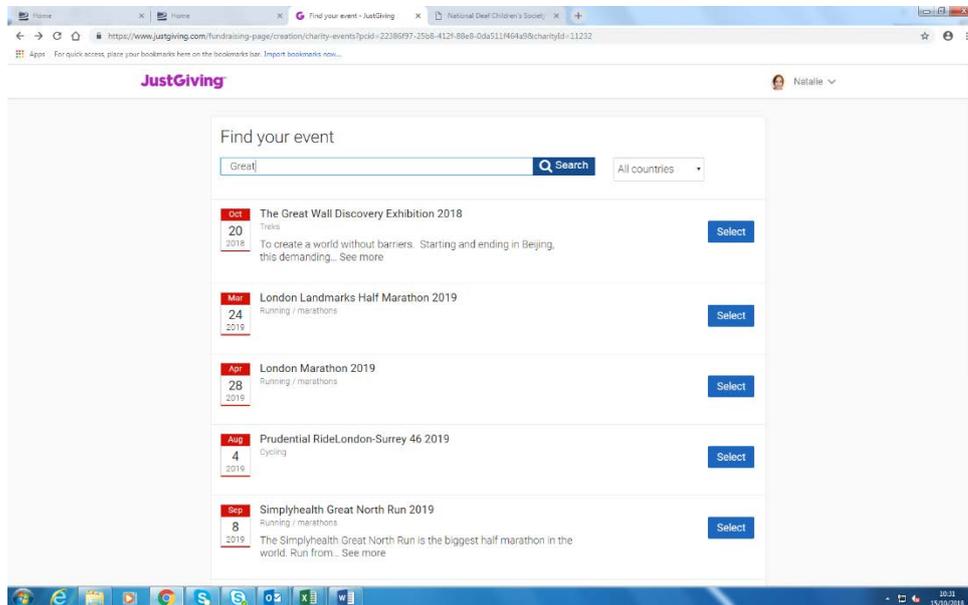

The screenshot shows a web browser displaying the JustGiving fundraising page for The National Deaf Children's Society. The page features the organization's logo, a navigation menu, and a search bar. The main content area includes a section titled "Join the The National Deaf Children's Society community" with a description of the charity's mission and contact information. Below this is a promotional banner for "the BIG cake bake". To the right, there are several donation cards, each with a donor's name, a profile picture, and a message. The cards include: James McNeill (£50.00 + £12.50 Gift Aid) with the message "In memory of a gentleman"; Robin, Siobhan & Katie (£50.00 + £12.50 Gift Aid) with the message "In memory of Norman Winlberg"; Stean Anthony (£20.00 + £5.00 Gift Aid) with the message "I wish to promote some forms of spectacular Asian theatre as an enjoyment for the deaf, where sound is less important, and dance, mime, gesture and rhythm are superb -- Japan very good, boys and girls"; Anonymous (£20.00 + £5.00 Gift Aid) with the message "I met some of your team on the streets of Grays. I'm very adverse to giving my bank details or setting up a standing order for donations. But I would like to make a donation."; and Julia Farmer (£10.00 + £2.50 Gift Aid) with the message "Made promise to Asian lady in Dudley I'd make a donation". The page also shows a "Fundraise for us" button and a "Donate" button.

2. Signup by setting up an account or login in with Facebook.
3. Next select choose the type of occasion you are fundraising for. If your event is organised by a third party, it will most likely be registered on justgiving. E.g. London Marathon or a Tough Mudder – select Taking part in an event. **If this is the case**, once you have selected Taking part in an event, go to step 4.

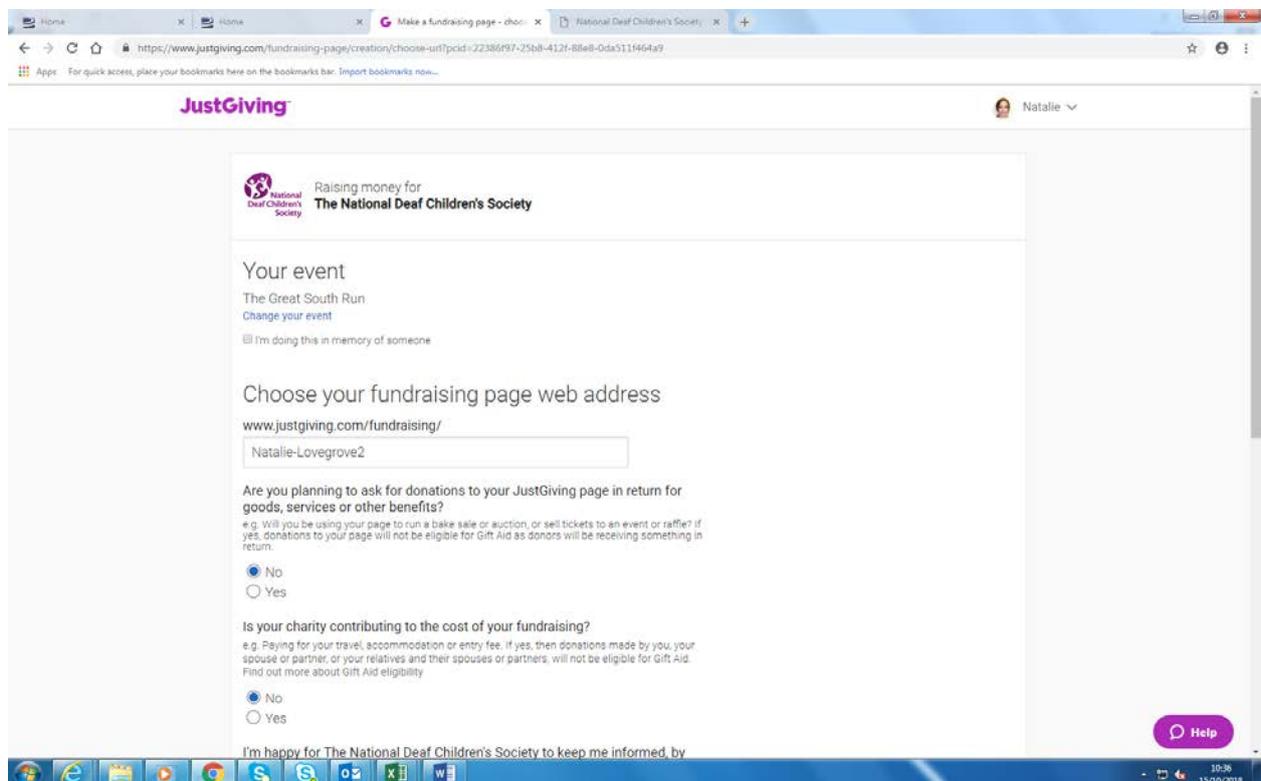

If you are not taking part in an organised event – you are doing a cake sale, skydive or organising your own event – select the option which best applies to your fundraising and skip to step 5.

The screenshot shows the "Event category selection" page on JustGiving. The page is titled "Raising money for The National Deaf Children's Society" and asks "What are you doing?". There are four main categories, each with an icon and a description: "Taking part in an event" (with a medal icon), "Celebrating an occasion" (with a birthday cake icon), "Remembering someone" (with a candle icon), and "Doing your own thing" (with a lightbulb icon). Below these categories are four buttons: "Organised event", "Personal occasion", "In memory", and "Personal challenge". At the bottom of the page, there is a section for "Popular events" with three cards: "Oct 21 2018 Simplyhealth Great South Run 2018 Running / marathons", "Feb 3 2019 Cancer Research UK London Winter Run 2019 Running / marathons", and "Apr 14 2019 Paris Marathon 2019 Running / marathons". The page also includes a footer with navigation links for "For Fundraisers & Donors", "For Charities", "For companies & partners", and "About JustGiving", along with a "Help" button.

4. There should be a list of organised events, if you are not able to find it you can search for it in the tool bar.

5. Next tick all the questions and create your page

Here are three top tips to get the most from your page;
Set a target - those that do raise more. Then when you hit it, set it higher!

Add a profile/cover photo - so people know it's you fundraising

Add details about your story - people are more likely to sponsor you if you tell them about what you are doing and why it is important to you
